

Journalling points

There are some journalling points through out the course (especially on the page exploring the Magician.)

You don't NEED to journal on these points- if you find it helpful, then fantastic. Otherwise consider them points of reflection.

Time and Fate

- Do you believe in fate?
- Is the future fixed?
- Is there such a thing as free will?
- Research the story of Norn-a-gest
- Are there pivotal moments in your life when your life changed dramatically? Where would you be if you had made a different choice?

The four suits

For each of the four suits consider;

- Key words/associations for the suit.
- Do you see yourself in this suit.
- Do you see people in your life as representing this suit.
- Are you "too much" of this suit, or could you embrace it a little more?
- Do you like this suit? Is it a strength, or a weakness?

Your Deck

- Was it challenging to be asked to commit to one deck for the course, or do you already mostly read with one deck?
- Which deck are you choosing to use for the course?

How the universe works

- Have you considered how the right cards come up in a reading?
- Where do you feel the information comes from for you?
- Have you created a simple practice to calm your mind at the start of a reading?
